

Your **Final** Chance to Protect South Cambridgeshire's Countryside

This is now an urgent update about the GCP's proposed busway

You have no doubt heard that Cambridge County Council has now **voted to proceed** with the GCP's plans to build a 5 mile road straight through the countryside between Babraham and Cambridge Biomedical Campus.

This proposed road will carve through open fields, dividing and creating parcels of land ready for future development - permanently concreting over this beautiful part of South Cambridgeshire.

In January, the County Council will apply to the Government for a Transport and Works Act Order (TWAo) to proceed with the project. Once submitted, we will only have six weeks to object.

But there is hope: a cheaper, more direct, and less environmentally destructive alternative exists - and we believe we can stop this!

To make our case, we're assembling a strong legal team, **but we need your help**. We need to raise well north of £150,000 to challenge this! Can you make a donation? Every contribution matters - whether it's £50, £500, or £5,000.

Here's how you can help:

1. **Make a donation:** Visit our fundraising page at Cambridge Past, Present and Future. please [click here](#)
2. **Help to deliver:** Can you help with delivering a new leaflet to all houses in Sawston, Great Shelford, Babraham and Stapleford? Email us at hello@bw4b.org to get involved.
3. **Spread the word:** Share this message with your friends, neighbours and local businesses.

Visit our website www.bw4b.org to see the full impact on your village and learn more about how you can help.

Time is now **very quickly running out**, and **your support is critical**. Together, we can protect South Cambridgeshire's countryside and advocate for better, sustainable transport solutions.

Thank you for your continued support!

Better Ways for Busways is a non-political group that supports better public transport solutions in South Cambridgeshire
